Description

Owens Corning™ InsulGuard™ Unfaced Water Heater Insulation is designed specifically for residential and commercial water heater applications. InsulGuard™ Unfaced Insulation is ideal for either gas or electric water heater applications where high temperature requirements are necessary with limited space availability.

Owens Corning™ InsulGuard™ Unfaced Insulation is a lightweight, flexible product providing ease of handling in both fabricating and installation.

Key Features

- Thin insulation offers an option for areas where high-temp insulation is required in narrow spaces
- Manufactured without formaldehyde
- User friendly fibers result in less dust levels and less itch and irritation for installers in comparison to binder based products
- Up to 1000°F operating temperatures for unfaced insulation
- Improved K allows thinner insulation to provide same R-value
- Certified high recycled content 53%

Product Applications

Owens Corning™ InsulGuard™ Unfaced Water Heater Insulation is a unique and proprietary blend of fiber sciences and manufacturing technology resulting in a product with excellent thermal performance for use with both gas and electric water heaters.

- Insulation for Residential Water Heaters
- Insulation for Commercial Water Heaters
- Foam Stops
- Tank Insulation
- Gaskets
- Chamber Wraps
- Thermal Panels

Availability

Owens Corning™ InsulGuard™ Unfaced Water Heater Insulation offers a broad range of thickness options below 1“. Products are available in numerous thicknesses; minimum 3/8” up to 1” in 1/8” increments. Foil and multiple other facings may be available upon request.

Thermal Conductivity

Standards, Codes Compliance

• Owens Corning™ InsulGuard™ Unfaced Water Heater Insulation is non-corrosive to steel (per ASTM C665)
• Owens Corning™ InsulGuard™ Unfaced Water Heater Insulation has flame spread/smoke developed indices less than 25/50 per ASTM E84/UL 723 (Unfaced Owens Corning™ InsulGuard™ Unfaced Water Heater Insulation is UL listed)
• Owens Corning™ InsulGuard™ Unfaced Water Heater Insulation has an operating temperature up to 1000°F (538°C) for unfaced materials (per ASTM C411).
• For additional information, refer to: Material Safety Data Sheet (MSDS) found on the MSDS vault via www.owenscorning.com

Certifications and Sustainable Features of Owens Corning™ InsulGuard™ Unfaced Water Heater Insulation

• Certified by SCS Global Services to contain a minimum of 53% recycled glass content, 31% pre-consumer and 22% post-consumer.
• Certified to meet indoor air quality standards under the stringent GREENGUARD Indoor Air Quality Certification Program, and the GREENGUARD Gold Certification.

Environmental and Sustainability

Owens Corning is a worldwide leader in building material systems, insulation and composite solutions, delivering a broad range of high-quality products and services. Owens Corning is committed to driving sustainability by delivering solutions, transforming markets and enhancing lives. More information can be found at: http://sustainability.owenscorning.com
